

DON'T REPLACE THE K-LOVE SIGNAL!!! It's what I listen to on my long commute, every work-day, to/from home. It's calming, inspiring and uplifting - which is exactly what everyone needs to listen to while driving or working! Who knows what kind of broadcaster would take its place and how many people that are loyal K-LOVE listeners would be negatively affected. You MUST continue to allow K-LOVE to continue its broadcast and NOT force them off the air.
